INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Cameron Independent School District
Cameron, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cameron Independent School District (the District), as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2025, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and the budgetary comparison information and the pension and OPEB schedules as listed in the table of contents be presented to be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance,

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying combining nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the required TEA schedules but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**INDEPENDENT AUDITOR'S REPORT
(CONTINUED)**

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
CAMERON INDEPENDENT SCHOOL DISTRICT
FOR THE YEAR ENDED AUGUST 31, 2025**

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial Report, we, the managers of Cameron Independent School District (the District), discuss and analyze the District's financial performance for the fiscal year ended August 31, 2025. Please read it in conjunction with the Independent Auditor's Report on pages 5 - 8, and the District's Basic Financial Statements, which begin on page 17.

FINANCIAL HIGHLIGHTS

- The General Fund ended the year with a fund balance of \$ 11,042,094.
- The General Fund had an increase in total expenditures of approximately \$ 342,000 from the prior year, due to the increase in payroll related expenditures. General Fund expenditures were approximately \$ 187,000 less than budgeted expenditures.
- During the year, the District generated \$ 23.1 million in tax and other revenues for governmental activities. The District's expenses exceeded governmental activities revenues by \$ 38 thousand.
- The total cost of all the District's programs decreased from prior year with a decrease of \$ 1.6 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to that of a private sector business.

The statement of net position presents information on all of the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator as to whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods such as uncollected property tax.

The government-wide financial statements distinguish functions of the District that are principally supported by taxes, intergovernmental revenues, and user fees & charges (governmental activities). The governmental activities of the District include the education of District students and the programs necessary to support such education.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
CAMERON INDEPENDENT SCHOOL DISTRICT
FOR THE YEAR ENDED AUGUST 31, 2025**

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds* and *governmental activities*.

The District maintains numerous individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and ESSER III and capital projects funds as they are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The District adopts an annual appropriated budget for the General Fund. A budgetary comparison schedule has been provided for this fund to demonstrate compliance with this budget. Supplementary budgetary comparison schedules have also been prepared for the Child Nutrition and Debt Service Funds and are included in the other supplementary information section of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. In addition, certain information required by the Texas Education Agency and the federal government regarding tax collection and grant expenditures is also presented along with required supplementary information related to the District's contributions to a cost-sharing pension plan with the Teacher Retirement System of Texas.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

We will present both current and prior year data and discuss significant changes in the accounts. Our analysis focuses on the Net Position (Table I) and Changes in Net Position (Table II) of the District's governmental activities.

Net position of the District's governmental activities decreased from \$ 9,756,692 to \$ 9,718,357. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – was \$ 1.9 million at August 31, 2025. This is an increase of \$ 339,914 in governmental unrestricted net position.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
CAMERON INDEPENDENT SCHOOL DISTRICT
FOR THE YEAR ENDED AUGUST 31, 2025**

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The District's total revenues decreased by approximately \$ 265,000 from the prior year. The District's cost of all programs and services decreased from the prior year by approximately \$ 1.6 million.

THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds (as presented in the balance sheet on pages 20-21) reported a combined fund balance of \$ 14.5 million, which is \$ 3.6 million less than last year's total of \$ 18.1 million.

The District's General Fund balance of \$ 11.0 million reported on page 20 differs from the General Fund's budgeted fund balance of \$ 11.7 million reported in the budgetary comparison schedule on page 55 due to revenues being less than amounts budgeted for state programs.

In the 2024-2025 school year, we made three amendments to the budget. Debt Service was amended due to receiving more revenue than estimated in local taxes and state revenue. The General Fund was amended for the following purposes:

- receiving more State Revenue than estimated,
- to cover Teacher Incentive Allotment (TIA) expenses and Retention Stipends,
- to cover Superintendent retirement/search expenses,
- to cover August accruals,
- to cover the salary/benefits of an additional custodian for the new Career and Technology building,
- to cover the salary/benefits for additional daycare workers for that growing program,
- to cover unbudgeted, unexpected maintenance and safety issues such as the YHS fire alarm system, security locks, CJH restroom partitions, pole vault pit repairs, addition of track storage building, football field turf replacement and the purchase of a van to transport special education students.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2025, the District had \$ 29.6 million, net of depreciation, invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance.

This year's major additions included:

| | |
|----------------------------|----------------------------|
| Buildings and Improvements | \$ 93,137 |
| Furniture and Equipment | 1,017,254 |
| Construction in progress | <u>1,745,234</u> |
| Total | <u><u>\$ 2,855,625</u></u> |

Debt

At year-end, the District had \$ 24.2 million in bonds and leases outstanding versus \$ 26.1 million last year. More detailed information about the District's long-term liabilities is presented in the notes to the financial statements starting on page 39.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The following factors were considered in establishing the District's budget for 2025-2026:

- The District's budgeted expenditures for the 2025-2026 school year total \$ 18,569,938.
- The District's total tax rate for 2024-2025 was \$ 1.0213 per \$ 100 valuation. The rate adopted for the 2025-2026 school year is \$.971 per \$ 100 valuation. The rates approved were \$0.61890 for Maintenance and Operations and \$ 0.35210 for Interest and Sinking.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2025

| Total Net Change in Fund Balances - Governmental Funds | \$ (3,605,295) |
|---|----------------|

Governmental funds report capital outlays as expenditures. However, in the government-wide statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period:

| | |
|----------------------|---------------------|
| Capital outlay | \$ 2,855,625 |
| Depreciation expense | <u>(1,718,542)</u> |
| | <u>\$ 1,137,083</u> |

Revenues in the government-wide statement of activities that do not provide current financial resources are not reported as revenues in the funds. These include recognizing deferred revenue as revenue and adjusting current year revenue to show the revenue earned from the current year's tax levy and to reflect the disposals of capital assets. The net effect these reclassifications and recognitions is to increase net position.

22,777

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt is an expenditure in the governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the government-wide statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:

| | |
|---|---------------------|
| Bond principal repayments | \$ 1,365,000 |
| Right of use lease principal repayments | 51,783 |
| Bond remarketing | 445,000 |
| Amortization of bond issuance premiums | <u>120,065</u> |
| Net adjustment | <u>\$ 1,981,848</u> |

GASB 68 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$ 527,362. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net pension liability. This caused a decrease in net position totaling \$484,459. Finally, the proportionate share of the TRS pension expense on the plan as a whole had to be recorded. The net pension expense decreased the change in net position by \$ 268,318. The net result is a decrease in the change in net position.

(225,415)

GASB 75 required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$ 123,051. Contributions made before the measurement date and during the previous fiscal year were also expended and recorded as a reduction in net OPEB liability. This caused a decrease in net position totaling \$ 115,216. Finally, the proportionate share of the TRS OPEB expense on the plan as a whole had to be recorded. The net OPEB expense increased the change in net position by (\$ 642,832). The net result is an increase to the change in net position.

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

The Board of Trustees (the "Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the Cameron Independent School District (the "District"). Because members of the Board are elected by the public; have the authority to make decisions, appoint administrators, and significantly influence operations; and have the primary accountability for fiscal matters; the District is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board ("GASB") Statement No. 61, "The Financial Reporting Entity-Omnibus" and GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units." There are no component units included within the reporting entity.

The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and other authoritative sources identified in GASB Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments"; and it complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding entities. However, the District is not included in any other governmental reporting entity. The District is a governmental entity exempt from federal income taxation and reporting under Internal Revenue Code Section 115.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes, state funding revenue, and user service charges.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. All capital asset depreciation is reported as a direct expense of the functional program that benefits from the use of the capital assets. Indirect costs associated with grant activities are allocated to administrative and support services functions to cover the overhead cost of providing the program. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirement of a particular function, as well as charges for services relating to the food service function. Taxes and other items are not properly included among program revenues and are reported instead as general revenues.

Separate financial statements are provided for governmental funds and agency funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This measurement focus means that only current assets and current liabilities are included on the balance sheet. Operating statements of these funds present resources (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when the obligation has matured.

Property taxes, state revenue, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Grant funds are considered to be earned when all eligibility requirements have been met and to the extent of expenditures made under the provisions of the grant, and accordingly, when such funds are received in advance, they are recorded as unearned revenue.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Capital Project Fund* is used to account for capital projects funded by the issuance of bonds in fiscal years 2023 and 2024. These projects include the construction and renovation of several facilities throughout the District.

The *Debt Service Fund* is used to account for revenues collected to pay interest and related costs and to retire long-term debt.

Additionally, the District reports the following non-major fund types:

Special revenue funds are used to account for resources restricted, committed, or assigned for specific purposes by a grantor or the Board. Federal and state financial assistance generally is accounted for in a *special revenue fund*. Generally, unused balances are returned to the grantor at the close of specified project periods. The food service funds are rolled over from year to year for use in the program(s).

Custodial funds (a fiduciary fund type) report resources, not in a trust, that are held by the District for other parties outside of the District. Custodial funds are accounted for using the accrual basis of accounting. These funds are used to account for the District's student activity funds and the Dulin Scholarship fund.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as program revenues include operating grants and contributions, food service user charges, and capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

D. ASSETS, DEFERRED OUTFLOW OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION OR EQUITY

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Another type of interfund transaction is a transfer, which occurs when resources of one fund are transferred to another.

All property tax receivables are shown net of an allowance for uncollectible taxes. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based upon historical experience in collecting personal property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Inventories and Prepaid Items

Inventories of supplies on the balance sheet are stated at weighted average cost, while inventories of donated food commodities are recorded at fair values supplied by the Texas Department of Human Services. Inventory items are recorded as expenditures when they are consumed. Supplies are used for almost all functions of activity, while food commodities are used only in the food service program. Although commodities are received at no cost, the fair value is supplied by the Texas Department of Human Services and recorded as inventory and revenue when received. When requisitioned, inventory is depleted and expenditures are charged. Inventories also include facilities maintenance and operation supplies, as well as instructional supplies. Supplies inventory reported in the General Fund and Child Nutrition Fund is offset in the fund level financial statements by a fund balance reserve that indicates that it is "non-spendable resources".

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items reported in the General Fund are offset in the fund level financial statements by a fund balance reserve that indicates that it is "non-spendable resources".

Pensions

The fiduciary net position of the Teacher Retirement System of Texas ("TRS") has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS's fiduciary net position. Benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

Governmental Fund Balances

Certain resources of the governmental funds are set aside for the repayment or use of specific programs and are recorded to four categories of designations:

Non-spendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, amounts that are appropriated by the Board or Board designee that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as non-spendable, restricted or committed.

Unassigned fund balances are amounts that are available for any purpose; these amounts can be reported only in the District's General Fund. The District's unassigned fund balance will be maintained to provide the District with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The unassigned General Fund balance may only be appropriated by resolution of the Board. Amendments or modifications of the committed fund balance must also be approved by resolutions of the Board. When it is appropriate for fund balance to be assigned, the Board has delegated authority by resolution to the Superintendent. In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted, committed, assigned and unassigned.

Capital Assets

Capital assets, which include land, buildings, furniture and equipment are reported in the governmental activities columns in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$ 5,000 and an estimated life greater than one year. Such assets are recorded at historical cost. Donated capital assets are recorded at acquisition value at the date of the donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the District are depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u> | <u>Years</u> |
|-----------------------|--------------|
| Buildings | 30-50 |
| Building Improvements | 10-30 |
| Vehicles | 5-10 |
| Computer Equipment | 3-5 |
| Other Equipment | 5-10 |

Compensated Absences

It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the government. There are limitations on carryover and accumulation of benefits and as a result the liability for accrued but unused benefits is not significant and therefore not recorded.

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

The District has evaluated the requirements of GASB 101 and determined that implementation does not have a material impact on the financial statements because, under the District's personnel policies, employees are not entitled to receive payment for unused vacation, sick leave, or other compensated absences upon separation from employment, retirement, or any other termination event.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Fund Equity/Net Position

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. In the fund financial statements, governmental funds report non-spendable, restrictions or commitments of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties or through action of the Board for use for a specific purpose. Assignments of fund balance represent tentative management plans that are subject to change and are neither restricted nor committed.

Deferred Outflows and Inflows of Resources

The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Data Control Codes

The data control codes refer to the account code structure prescribed by TEA in the *Financial Accountability System Resource Guide*. The TEA requires school districts to display those codes in the financial statements filed with the Agency in order to ensure accuracy in building a state-wide database for policy development and funding plans.

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

As of August 31, 2025, the District did not have any material items required to be reported as SBITAs as a result of implementing GASB 96.

Leases

The District is a lessee for noncancelable leases of copier equipment. The District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life. Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District uses its estimated incremental borrowing rate as the discount rate for leases.

The lease term includes the noncancelable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund and the Child Nutrition Program which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budget report appears in Exhibit G-1 and the other two reports appear in Exhibits J-2 and J-3.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

1. Prior to August 20 the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year end.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. DEPOSITS AND INVESTMENTS

Legal and Contractual Provisions Governing Deposits and Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act.

At August 31, 2025, the District had no investments that meet these criteria.

Additional Contractual Provisions governing deposits and investments are as follows:

The funds of the District must be deposited and invested under the terms of a contract, the contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

At August 31, 2025, the carrying amount of the District's deposits was \$ 14,632,208 and the bank balance was \$ 16,237,104. The District's cash deposits at August 31, 2025 and during the year then ended, were covered by FDIC insurance or by a letter of credit issued by the Federal Home Loan Bank of Dallas. The letter of credit issued was for \$ 35.2 million. The District did not suffer any losses due to the risk exposure.

Policies Governing Deposits and Investments

1. Foreign Currency Risk – The District's deposits and investments are not exposed to foreign currency risk.
2. Custodial Credit Risk – The District's policy is to be collateralized. The District was fully collateralized during the year.
3. Interest Rate Risk – The District has no debt securities which have interest rate risk.
4. Other Credit Risk Exposure – The District does not have investments which would expose the District to credit risk.
5. Concentration of Credit Risk – The District does not have investments which would expose the District to this risk.

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

| Facilities Acquisition and Construction | <u>70,306</u> |
| Total Depreciation Expense | <u><u>\$ 1,718,542</u></u> |

E. LEASES

During the current fiscal year, the District leased copier equipment. The lease term is for five years. As of August 31, 2025, the value of the lease liability was \$ 190,841. The value of the right-to-use assets as of the end of the current fiscal year was \$ 276,028 and had accumulated amortization of \$ 85,187.

F. BONDS

Bonded indebtedness of the District is reflected in the Statement of Net Position and current requirements for principal and interest expenditures are accounted for in the Debt Service Fund.

Bond Remarketing. During fiscal year 2025, the District's Series 2022 Adjustable Rate Unlimited Tax School Building Bonds were remarketed in accordance with the original bond indenture provisions. As part of the remarketing process, the remarketing agent and bondholders agreed to a reduction of the outstanding principal balance from \$9,500,000 to \$9,055,000 and the bonds' interest rate structure was converted from a variable rate indexed to market conditions to a fixed rate of 5.00%.

No cash was exchanged between the District and the bondholders in connection with the remarketing. The reduction in principal was effected through the legal release of the District's obligation for the extinguished portion of the debt. Accordingly, the transaction was accounted for as a partial extinguishment of debt.

The District derecognized \$445,000 of bonds payable from its government-wide financial statements and recognized a gain on extinguishment of debt in the same amount. This gain is reported as a nonoperating item in the Statement of Activities.

The remarketed bonds retain their original maturity date of February 15, 2042, but were subject to revised interest rate terms consistent with current market conditions. The new remarketing agreement does not provide for any new proceeds or refunding activity.

J. DEFINED BENEFIT PENSION PLAN

Plan Description. Cameron Independent School District participates in a multiple-employer, cost-sharing, defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detail information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the internet at <https://www.trs.texas.gov/learning-resources/publications> ; by writing to TRS at attention Finance Division, PO BOX 149676, Austin, TX, 78714-0185, or by calling 1-800-223-8778.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above. Accordingly, the 2023 Texas Legislature passed Senate Bill (SB) 10 and House Joint Resolution (HJR) 2 to provide eligible retirees with a one-time stipend and an ad hoc cost-of-living-adjustment (COLA).

One-Time Stipends. Stipends, regardless of annuity amount, were paid in September 2023 to annuitants who met the qualifying age requirement on or before August 31, 2023:

- A one-time \$ 7,500 stipend to eligible annuitants who are 75 years of age and older.
- A one-time \$ 2,400 stipend to eligible annuitants age 70 to 74.

Cost-of-Living Adjustment. A cost-of-living adjustment (COLA) was dependent on Texas voters approving a constitutional amendment (Proposition 9) to authorize the COLA. Voters approved the amendment in the November 2023 election and the following COLA was applied to eligible annuitants' payments beginning with their January 2024 payment:

- 2% COLA for eligible retirees who retired between September 1, 2013 through August 31, 2020.
- 4% COLA for eligible retirees who retired between September 1, 2001 through August 31, 2013.
- 6% COLA for eligible retirees who retired on or before August 31, 2001.

NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 thru 2025. *Contribution Rates can be found in the TRS 2024 ACFR, Note 11, on page 87.*

Contribution Rates

| | 2024 | 2025 |

| Member | 8.25% | 8.25% |
| Non-Employer Contributing Entity (State) | 8.25% | 8.25% |
| Employers | 8.25% | 8.25% |
| Current fiscal year employer contributions | \$ 527,362 | |
| Current fiscal year member contributions | 1,016,764 | |
| 2024 measurement year NECE on-behalf contributions | 721,481 | |

Contributors to the plan include active members, employers, and the State of Texas as the only non-employer contributing entity. The State is also the employer for senior colleges and universities, medical schools, and other entities, including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public schools, junior colleges, other entities, or the State of Texas as the employer for senior colleges, universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the state contribution rate for certain instructional or administrative employees and 100 percent of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is a surcharge an employer is subject to.

- All public schools, charter schools, and regional education service centers must contribute 1.9 percent of the member's salary beginning in fiscal year 2024, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2023 actuarial valuation was determined using the following actuarial assumptions: *Actuarial Assumptions can be found in the 2024 TRS ACFR, Note 11, page 88.*:

| | |
|--|---|
| Valuation Date | August 31, 2023 rolled forward to August 31, 2024 |
| Actuarial Cost Method | Individual Entry Age Normal |
| Asset Valuation Method | Fair Value |
| Single Discount Rate | 7.00% |
| Long-Term Expected Investment Rate of Return | 7.00% |
| Municipal Bond Rate as of August 2019 | 3.87% - The source for the rate is the Bond Buyers 20 Index which represents the estimated yield of a portfolio of 20 general obligation bonds maturing in 20 years based on a survey of municipal bond traders. |
| | |
| Last year ending August 31 in Projection | |
| Period (100 years) | 2123 |
| Inflation | 2.30% |
| Salary Increases | 2.95% to 8.95% including inflation |
| Ad hoc post employment benefit changes | None |

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2023. For a full description of these assumptions please see the actuarial valuation report dated November 21, 2023.

Discount Rate. A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.54 percent of payroll in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments is 7.00 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. On August 31, 2024, the District reported a liability of \$ 5,255,649 for its proportionate share of the TRS net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| | |
|--|-----------------------------|
| District's proportionate share of the collective Net Pension Liability | \$ 5,255,649 |
| State's proportionate share that is associated with the District | 7,820,461 |
| Total | <u>\$ 13,076,110</u> |

The net pension liability was measured as of August 31, 2023 and rolled forward to August 31, 2024 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2023 thru August 31, 2024.

On August 31, 2024, the employer's proportion of the collective net pension liability was .0086039444% which was an increase of .0005522743% from its proportion measured as of August 31, 2023.

Changes Since the Prior Actuarial Valuation

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The 2023 Texas Legislature passed Senate Bill 10 (SB 10), which provided a stipend payment to certain retirees and variable ad hoc cost-of-living adjustments (COLA) to certain retirees in early fiscal year 2024. Due to its timing, the legislation and payments were not reflected in the August 31, 2023 actuarial valuation. Under the roll forward method, an adjustment was made to reflect the legislation in the rolled forward liabilities for the current measurement year, August 31, 2024. SB 10 and House Joint Resolution 2 (HJR 2) of the 88th Regular Legislative Session appropriated payments of \$ 1.645 billion for one-time stipends and \$ 3.355 billion for COLAs. This appropriation is treated as a supplemental contribution and included in other additions. Since the Legislature appropriated funds for this one-time stipend and COLA, there was no impact on the Net Pension Liability of TRS.

The amount of pension expense recognized by District in the reporting period was \$ 1,687,453.

For the year ended August 31, 2024, the District recognized pension expense of \$ 1,687,453 and revenue of \$ 934,676 for support provided by the State. (Refer to the 2024 Allocation (Schedule) of Non-Employer Contributing Entity On-Behalf Payments (Contributions) for this information posted on the TRS website under GASB Statements 67 & 68.)

| Total as of fiscal year end | <u><u>\$ 1,539,457</u></u> | <u><u>\$ 156,366</u></u> |

The District recognized \$ 527,362 as deferred outflows of resources related to pensions resulting from [employer] contributions subsequent to the measurement date, which will be recognized as a reduction of the net pension liability in the measurement year ended August 31, 2025. The other amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending August 31, | Pension Expense |

K. DEFINED OTHER POST EMPLOYMENT BENEFIT PLANS

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing, defined benefit OPEB plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov/learning-resources/publications>; by writing to TRS at P.O. Box 149676, Austin, TX, 78714-0185; or by calling (800) 223-8778.

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retired are reflected in the following table.

| | <u>Medicare</u> | <u>Non-Medicare</u> |
|---|-----------------|---------------------|
| Retiree or Surviving Spouse | \$ 135 | \$ 200 |
| Retiree and Spouse | 529 | 689 |
| Retiree or Surviving Spouse and Children | 468 | 408 |
| Retiree and Family | 1,020 | 999 |

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions, and contributions from the state, active employees, and participating employers are based on active employee compensation. The TRS Board does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65 percent of salary. Section 1575.204 establishes a public school contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the employer. The actual public school contribution rate is prescribed by the Legislature in the General Appropriations Act, which is 0.75 percent of each active employee's pay for fiscal year 2024. The following table shows contributions to the TRS-Care plan by type of contributor.

| | Contribution Rates | |
|--|--------------------|------------|
| | 2024 | 2025 |
| Member | 0.65% | 0.65% |
| Non-Employer Contributing Entity (State) | 1.25% | 1.25% |
| Employers | 0.75% | 0.75% |
| Federal/Private Funding Remitted by Employers | 1.25% | 1.25% |
| Current fiscal year employer contributions | | \$ 123,051 |
| Current fiscal year member contributions | | 80,109 |
| 2024 measurement year NECE on-behalf contributions | | 146,378 |

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether they participate in the TRS-Care OPEB program*). When hiring a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$ 535 per retiree.

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2023. Update procedures were used to roll forward the total OPEB liability to August 31, 2024. The actuarial valuation was determined using the following actuarial assumptions: *Actuarial Assumptions can be found in the 2024 TRS ACFR, Note 9, page 78.*

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2023 TRS pension actuarial valuation that was rolled forward to August 31, 2024:

| | |
|----------------------|---------------------|
| Rates of Mortality | Rates of Disability |
| Rates of Retirement | General Inflation |
| Rates of Termination | Wage Inflation |

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

| Expenses | 2.95% to 8.95% including inflation |
| Salary Increases | 2.95% to 8.95% including inflation |
| Ad Hoc Post-Employment Benefit Changes | None |

Discount Rate. A single discount rate of 3.87 percent was used to measure the total OPEB liability. This was a decrease of 0.26 percent in the discount rate since the previous year. *The Discount Rate can be found in the 2024 TRS ACFR on page 79.*

Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the Single Discount Rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Bond Buyer's "20-Bond GO Index" as of August 31, 2024, using the Fixed Income Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the net OPEB liability if the discount rate used was 1 percentage point lower than and 1 percentage point higher than the discount rate that was used (3.87%) in measuring the net OPEB liability.

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. On August 31, 2024, the District reported a liability of \$ 3,903,524 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

| | |
|---|----------------------------|
| District's proportionate share of the Collective Net OPEB Liability | \$ 3,903,524 |
| State's proportionate share that is associated with the District | 4,891,063 |
| Total | <u>\$ 8,794,587</u> |

The net OPEB liability was measured as of August 31, 2023 and rolled forward to August 31, 2024 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2023 thru August 31, 2024.

On August 31, 2024, the employer's proportion of the collective net OPEB liability was .0128610441% which was a decrease of .0006212641% from its proportion measured as of August 31, 2023.

Changes Since the Prior Actuarial Valuation. The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability (TOL) since the prior measurement period: *These can be found in the 2024 TRS ACFR on page 79.*

- The single discount rate changed from 4.13 percent as of August 31, 2023 to 3.87 percent as of August 31, 2024, accompanied by revised demographic and economic assumptions based on the TRS experience study.
- The tables used to model the impact of aging on the underlying claims were revised.

Changes of Benefit Terms Since the Prior Measurement Date. There were no changes in benefit terms since the prior measurement date.

The amount of OPEB expense recognized by the District in the reporting period was \$ 1,163,364.

For the year ended August 31, 2024, the District recognized OPEB expense of \$ 1,163,364 and revenue of \$ 635,748 for support provided by the State. (Refer to the 2024 Allocation (Schedule) of Non-Employer Contributing Entity On-Behalf Payments (Contributions) for this information posted on the TRS website under GASB Statements 74 & 75.)

L. ON-BEHALF PAYMENTS FOR FRINGE BENEFITS

The Medicare Prescription Drug, Improvement and Modernization Act of 2004, which was effective January 1, 2007, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments are recognized as equal revenues and expenditures/expenses by the District. For the year ended August 31, 2025, the contribution made on behalf of the District was \$ 77,622.

M. COMMITMENTS AND CONTINGENCIES

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2025 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

N. SHARED SERVICE ARRANGEMENTS

Cameron ISD is not a fiscal agent for any shared service arrangements.

The District participates in the BURLESON-MILAM SPECIAL SERVICES COOPERATIVE which is a shared services arrangement (SSA) for resource education services. This SSA includes nine participating independent school districts with the Rockdale ISD acting as fiscal agent for the SSA. Financial transactions of the SSA are accounted for in accordance with Model 3 of the SSA section of the Texas Education Agency *Financial Account System Resource Guide*. This SSA is funded partially through State and Local funds and partially through federal programs.

The individual programs and the Cameron ISD participation in each which were included in this SSA were as follows:

| Program | CFDA Number | District Value |
|-------------------|----------------|--------------------------|
| State and Local | -- | \$ 181,149 |
| IDEA-B, | 84.027 | 286,138 |
| IDEA-B, Preschool | 84.173 | 6,918 |
| Total | | <u>\$ 474,205</u> |

The expenditures under the above programs were classified as follows:

| Classification | Amount |
|-------------------------------|--------------------------|
| 6100 - Payroll Costs | \$ 357,111 |
| 6200 - Contracted Services | 76,296 |
| 6300 - Supplies and Materials | 30,302 |
| 6400 - Other Operating Costs | 10,496 |
| | <u>\$ 474,205</u> |

O. HEALTH CARE COVERAGE AND MAINTENANCE OF EFFORT

During the year ended August 31, 2025, employees of the District were covered by the state health insurance plan. The District contributed \$ 377 per month per full time employee, the state paid \$ 75 per month, and the employees authorized payroll deductions to cover the remaining premiums due for the desired coverage. Contributions were paid to TRS Active Care.

The total District premium paid for health care was approximately \$ 1,455,683 for the 201 participating employees at August 31, 2024. There were 264 employees eligible for coverage at August 31, 2025.

P. UNEMPLOYMENT COMPENSATION POOL

During the year ended August 31, 2025, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool. For the year ended August 31, 2025, the Fund anticipates that the District has no additional liability beyond the contractual obligation for payment of contribution.

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
AUGUST 31, 2025**

The fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2024, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

Q. TAX ABATEMENT

On March 12, 2022, the District's Board of Trustees approved an agreement Ben Milam Solar 2, LLC for a Limitation on Appraised Value of Property for School District Maintenance and Operations Taxes pursuant to Chapter 313 of the Texas Tax Code. Value limitation agreements are part of a State program, originally created in 2001 which allows school districts to limit the taxable value of an approved project for Maintenance and Operations (M&O) for a period of years specified in a statute. The project(s) must be consistent with the State's goal to "encourage large scale capital investments in this State." Chapter 313 grants eligibility to companies engaged in manufacturing, research and development, renewable electric energy production, clean coal projects, nuclear power generation and Texas Priority projects. Ben Milam Solar 2, LLC's property qualified for a tax limitation agreement under Section §313.024(b)(5) of the Texas tax code, as a renewable energy electric generation. The agreement includes supplemental payments to the District in the amount of \$ 159,300 annually through 2036.

R. EVALUATION OF SUBSEQUENT EVENTS

The District has evaluated all subsequent events through November 21, 2025, the date the financial statements were available to be issued.

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2025**

Budgetary Information

The Board of Trustees adopts an “appropriated budget” for the General Fund, Debt Service Fund, and the National School Breakfast and Lunch Fund which is included in the Special Revenue Funds. The District is required to present the adopted and final amended budgeted revenue and expenditures. The District presented the General Fund budgetary comparison schedule as required supplementary information, while the National School Breakfast and Lunch and Debt Service Funds budgetary comparison schedules are presented as required TEA schedules.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least 10 days' public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments, made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end. Because the District has a policy of careful budgetary control, amendments were necessary during the year.
4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year-end.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Trustees
Cameron Independent School District
Cameron, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Cameron Independent School District (the District), as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 21, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees
Cameron Independent School District
Cameron, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Cameron Independent School District's (The District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2025. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED THE UNIFORM GUIDANCE
(CONTINUED)**

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED THE UNIFORM GUIDANCE
(CONTINUED)**

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**CAMERON INDEPENDENT SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED AUGUST 31, 2025**

Note A – Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Cameron Independent School District under programs of the federal government for the year ended August 31, 2023. The information in this Schedule is presented in accordance with the requirements of Title 2 U. S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Cameron Independent School District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Cameron Independent School District.

Note B – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and/or OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments Organizations*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Note C – Indirect Cost Rate

Cameron Independent School District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

Expenditures Reported:

1. For all Federal programs, the District uses the fund types specified in Texas Education Agency's Financial Accountability System Resource Guide. Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund, which is a Governmental Fund type. With this measurement focus, only current assets, current liabilities, and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types and Agency Funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

3. During the current year, the District received the following funds which are not included in the Schedule of Expenditures of Federal Awards.

| | |
|---|--------------------|
| Total expenditures of Federal Awards | \$ 1,773,604 |
| Medicaid Reimbursement (SHARS) | 34,430 |
