COMPREHENSIVE NEEDS ASSESSMENT (TIA 13.1)

The Cameron Independent School District conducted a comprehensive needs assessment based on TAPR data such as STAAR performance, attendance rates, dropout rates, CTE certification completion, TSI data, and SAT/ACT data. In addition, for general education and for special programs, the data was disaggregated for all population groups, including male and female. Individual student's strengths and weaknesses were identified by disaggregating STAAR data by grade level, subject area, and objectives. The needs assessment also consisted of identifying needs for all subject areas, grade levels, and each special program considering the six areas of decision making (planning, curriculum/instruction, staffing, staff development, school organization, budgeting) and through the Effective Schools Correlates (Instructional Leadership, Instructional Focus, High Expectations, School Climate, and Parental Involvement). District needs identified through surveys and PBMAS analysis were also considered.

District and campus improvement plans from the 2020-2021 school year were reviewed and revised based on the achievement of specific goals and objectives. As a result, the 2021-2022 district and campus improvement plans include all identified priority needs.
