District Vision Statement

Students will take intellectual risks and set personal goals.

Students will experience a diverse education to include the arts, character development, and physical activities.

Students will effectively use technology as a learning resource.

Students will exhibit confidence, adaptability, strong character, and balance in life.

Students will graduate with the prerequisite skills needed for post-secondary entry, military qualification, and/or workforce entry.

District Mission Statement

The Cameron Independent School District, in partnership with parents and community, will provide a quality education for all of our students, empowering them to pursue productive and fulfilling lives in an ever-changing, interdependent world.

State Board of Education Mission, Goals, and Objectives

The mission of the public education system of this state is to ensure that all Texas children have access to a quality education that enables them to achieve their potential and fully participate now and in the future in the social, economic, and educational opportunities of our state and nation. That mission is grounded on the conviction that a general diffusion of knowledge is essential for the welfare of this state and for the conviction that a successful public education system is directly related to a strong, dedicated, and supportive family and that parental involvement in the school is essential for the maximum educational achievement of a child. The goals of public education are:

1. The students in the public education system will demonstrate exemplary performance in the reading and writing of the English language.
2. The students in the public education system will demonstrate exemplary performance in the understanding of mathematics.
3. The students in the public education system will demonstrate exemplary performance in the understanding of science.
4. The students in the public education system will demonstrate exemplary performance in the understanding of social studies.

The objectives of public education are:

1. Parents will be full partners with educators in the education of their children.
2. Students will be encouraged and challenged to meet their full educational potential.
3. Through enhanced dropout prevention efforts, all students will remain in school until they obtain a high school diploma.
4. A well-balanced and appropriate curriculum will be provided to all students.
5. Qualified and highly effective personnel will be recruited, developed, and retained.
6. Texas students will demonstrate exemplary performance in comparison to national and international standards.
7. School campuses will maintain a safe and disciplined environment conducive to student learning.
8. Educators will keep abreast of the development of creative and innovative techniques in instruction and administration using those techniques as appropriate to improve student learning.
9. Technology will be implemented and used to increase the effectiveness of student learning, instructional management, staff development, and administration.
10. Educators will prepare students to be thoughtful, active citizens who have an appreciation for the basic values of our state and national heritage and who can understand and productively function in a free enterprise society.
11. The State Board of Education, the agency, and the commissioner shall assist school districts and charter schools in providing career and technology education to students.

Equal Educational Opportunity

No officer or employee of the District shall, when acting or purporting to act in an official capacity, refuse to permit any student to participate in any school program because of the student's race, religion, color, sex, or national origin.

COMPREHENSIVE NEEDS ASSESSMENT (TIA 13.1)

The Cameron Independent School District, Cameron Junior High School, conducted a comprehensive needs assessment based on TAPR data such as STAAR performance, attendance rates, dropout rates, CTE certification completion, TSI data, and SAT/ACT data. In addition, for general education and for special programs, the data was disaggregated for all population groups, including male and female. Individual student's strengths and weaknesses were identified by disaggregating STAAR data by grade level, subject area, and objectives.

The needs assessment also consisted of identifying needs for all subject areas, grade levels, and each special program considering the six areas of decision making (planning, curriculum/instruction, staffing, staff development, school organization, budgeting) and through the Effective Schools Correlates (Instructional Leadership, Instructional Focus, High Expectations, School Climate, and Parental Involvement). District needs identified through surveys and PBMAS analysis were also considered.

District and campus improvement plans from the 2018-2019 school year were reviewed and revised based on the achievement of specific goals and objectives. As a result, the 2019-2020 district and campus improvement plans include all identified priority needs.
